

Command to run the SingleSense-Gait 3d Program.

- Terminal 1 - `cd /home/priyanshu/Projects/SignalSense && ./run.sh`

Fill the router details - ip, username and password.

- Terminal 2 - `cd /home/priyanshu/Projects/SignalSense-Gait3D && (if [-f backend/.venv/bin/uvicorn]; then (cd backend && ../backend/.venv/bin/uvicorn app.main:app --host 0.0.0.0 --port 8000 --reload &); else (cd backend && uvicorn app.main:app --host 0.0.0.0 --port 8000 --reload &); fi) && cd frontend && npm run dev`

Open the link that appears in the 2nd terminal link.
